

## EMPLOYMENT OPPORTUNITIES AT BRUMMITT ENERGY ASSOCIATES

*Founded in 1998, Brummitt Energy Associates is a premier energy modeling firm based in San Diego, California. Our team of professionals focuses on high-performance projects of all types in the non-residential and mixed-use sectors including new construction, renovations, and deep retrofits. Some of the firm's service offerings include integrated whole building energy modeling, daylighting design, lighting design analysis, utility and tax incentives, and documentation for LEED, CHPS, Zero Net Energy, and other energy requirements.*

*Brummitt Energy is an Equal Opportunity Employer and it is our policy to provide fair employment and career opportunities to all qualified persons, and to offer competitive benefits. Salary is commensurate with experience. If you are interested in becoming a part of our team, please email your resume and cover letter to [employment@brummitt.com](mailto:employment@brummitt.com). All materials will be kept in strictest confidence.*

### Energy Analyst / Senior Energy Analyst

- **Software proficiency in:**
  - ✓ EnergyPro, EnergyPlus, and/or eQUEST
  - ✓ AutoCAD, Sketchup, and/or Revit
  - ✓ Microsoft Excel/Word/Outlook
  - ✓ Additional software skills, such as CBECC-Com, DesignBuilder, Radiance, etc. are a plus.
- **Well-developed understanding of:**
  - ✓ Basic MEP systems
  - ✓ Architectural drawings
  - ✓ Basic principles of sustainable design
  - ✓ Title 24 and ASHRAE 90.1 energy codes
- **Project Management Skills:**
  - ✓ Excellent written and verbal communication skills
  - ✓ Independent and team-oriented problem solving abilities
  - ✓ Project budget management
  - ✓ Management of staff resources
- **Education and Certifications**
  - ✓ BS degree in related field of study
  - ✓ Certified Energy Analyst (CEA) or active pursuit
  - ✓ ASHRAE: BEMP or active pursuit
  - ✓ P.E. in related field or active pursuit
  - ✓ USGBC: LEED AP or active pursuit

#### Examples of responsibilities include:

- Energy modeling: understand baselines, outline options, anticipate next steps, identify errors or inconsistencies.
- Report writing and documentation.
- Communication skills: clearly present ideas, answer questions, and discuss findings with clients by email, phone, and in person.
- Maintain high quality and manage team resources for the successful delivery of projects.

#### Experience Requirements:

- ✓ Energy Analyst: Minimum 1 – 3 Years' Experience
- ✓ Senior Energy Analyst: Minimum 4 Years' Experience
